§ 659.29

safety and security review activities and the status of subsequent findings and corrective actions. The security part of this report must be made available for oversight agency review, consistent with §659.23(e).

- (g) The annual report must be accompanied by a formal letter of certification signed by the rail transit agency's chief executive, indicating that the rail transit agency is in compliance with its system safety program plan and system security plan.
- (h) If the rail transit agency determines that findings from its internal safety and security reviews indicate that the rail transit agency is not in compliance with its system safety program plan or system security plan, the chief executive must identify the activities the rail transit agency will take to achieve compliance.
- (i) The oversight agency must formally review and approve the annual report.

§659.29 Oversight agency safety and security reviews.

At least every three (3) years, beginning with the initiation of rail transit agency passenger operations, the oversight agency must conduct an on-site review of the rail transit agency's implementation of its system safety program plan and system security plan. Alternatively, the on-site review may be conducted in an on-going manner over the three year timeframe. At the conclusion of the review cycle, the oversight agency must prepare and issue a report containing findings and recommendations resulting from that review, which, at a minimum, must include an analysis of the effectiveness of the system safety program plan and the security plan and a determination of whether either should be updated.

§659.31 Hazard management process.

(a) The oversight agency must require the rail transit agency to develop and document in its system safety program plan a process to identify and resolve hazards during its operation, including any hazards resulting from subsequent system extensions or modifications, operational changes, or other changes within the rail transit environment.

- (b) The hazard management process must, at a minimum:
- (1) Define the rail transit agency's approach to hazard management and the implementation of an integrated system-wide hazard resolution process:
- (2) Specify the sources of, and the mechanisms to support, the on-going identification of hazards;
- (3) Define the process by which identified hazards will be evaluated and prioritized for elimination or control;
- (4) Identify the mechanism used to track through resolution the identified hazard(s):
- (5) Define minimum thresholds for the notification and reporting of hazard(s) to oversight agencies; and
- (6) Specify the process by which the rail transit agency will provide ongoing reporting of hazard resolution activities to the oversight agency.

§659.33 Accident notification.

- (a) The oversight agency must require the rail transit agency to notify the oversight agency within two (2) hours of any incident involving a rail transit vehicle or taking place on rail transit-controlled property where one or more of the following occurs:
- (1) A fatality at the scene; or where an individual is confirmed dead within thirty (30) days of a rail transit-related incident:
- (2) Injuries requiring immediate medical attention away from the scene for two or more individuals;
- (3) Property damage to rail transit vehicles, non-rail transit vehicles, other rail transit property or facilities and non-transit property that equals or exceeds \$25,000;
- (4) An evacuation due to life safety reasons:
 - (5) A collision at a grade crossing;
 - (6) A main-line derailment;
- (7) A collision with an individual on a rail right of way; or
- (8) A collision between a rail transit vehicle and a second rail transit vehicle, or a rail transit non-revenue vehicle
- (b) The oversight agency shall require rail transit agencies that share track with the general railroad system and are subject to the Federal Railroad Administration notification requirements, to notify the oversight agency
